

FlowTite® 4ALL® TEST CAPS

PUSHON® PEX, COPPER AND CPVC PIPE

FlowTite® 4ALL® Test Caps utilize ACCOR's Patented PUSHON Technology for fast and easy installation every time!

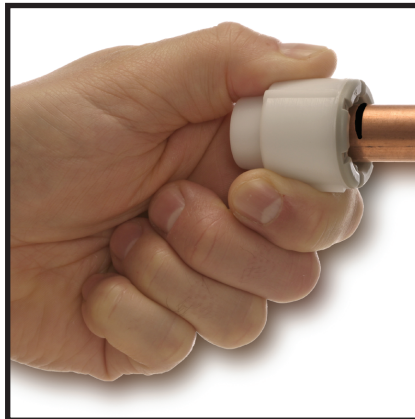

Increase Your Profits

FlowTite's unique re-usable design will enable you to save on material costs as well as both rough-in and finish labor costs. FlowTite 4ALL Test Caps are removable by twisting off counterclockwise, and are reusable until O-ring wears out (approximately 20 times).

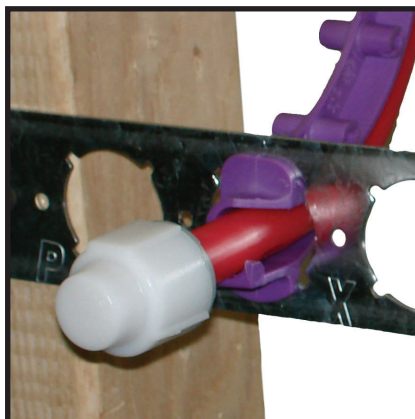

Proven Quality Since 1988

ACCOR Technology has proven reliability with over 25 million PUSHON technology installations in over 2 million U.S. homes since 1988.

For your finish work consider using the FlowTite 4ALL Supply Stop system for additional labor savings on the entire project.

Just mark the pipe 1 1/4", PUSHON, test, twist off and re-use!

Eliminate costly copper stubouts.

- ▶ No tools, no solder, no glue required
- ▶ Eliminates expensive pre-formed copper stub outs and in-the-wall joints
- ▶ Pressure tested for a 10:1 margin of safety
- ▶ Removable and reusable
- ▶ One test cap fits all pipe

** Keep from contact with Flux and other non-household corrosive chemicals.*
