**ACCOR**<sup>®</sup> TECHNOLOGY, INC.

**FlowTite**<sup>®</sup>

### 10-YEAR LIMITED WARRANTY

ACCOR<sup>®</sup> Technology, Inc. warrants to the original consumer purchaser that *FlowTite*<sup>®</sup> angle stop valves which are installed in accordance with ACCOR's published installation instructions shall be free from defects in material and workmanship for a period of 10 years in residential use from the date of purchase as shown on purchaser's receipt or 1 year from date of purchase in commercial use.

In the event that this product fails to function during the warranty period due to proven defects in material or workmanship, ACCOR will pay to the consumer the prorated reasonable cost of replacement of the angle stop up to these limits.

Maximum replacement cost to ACCOR shall be the replacement cost of the defective valve, including labor to remove defective valve and replace it with a new *FlowTite*<sup>®</sup> valve. The reasonable replacement cost will be reduced by a percentage which is based on the number of months elapsed in the warranty period divided by the original warranty period. The reasonable cost of such replacement will be at the sole discretion of ACCOR.

A settlement as described above will be the only remedy available to the consumer for defective *FlowTite*<sup>®</sup> valves. In no event will ACCOR be liable for damage incurred in installation, re-installation, repair or replacement as well as incidental and consequential damages or damages to property, its contents or its occupants. Claims will not be allowed for any damage when valves are used on pipe that does not meet the specifications or otherwise conform to ASTM standards for copper, CPVC, or PEX pipe.

Some states do not allow the exclusion of or limitation of incidental or consequential damages so the above limitations may not apply to you. This warranty will not apply to any item for which a defect is claimed unless ACCOR is notified within 30 days of the date of discovery of such defect. ACCOR will arrange to send prepaid the defective valve for inspection by a 3rd party.

ACCOR assumes no responsibility for any failure due to faulty installation or abuse, stress condition, excessive water hammer, over torque, damaged pipe, or exposure to corrosive chemicals and/or other destructive materials.

The Warranty specified above is an exclusive warranty of ACCOR Technology, Inc. pertaining to *FlowTite*<sup>®</sup> angle stop valves and is in lieu of all other warranties including the implied warranties of merchantability of fitness for a particular purpose.

The warranty gives you specific legal rights and you may also have other rights which vary from state to state.
